Power Up Business With Our New Contract Wind and Solar Energy Program

Looking for a way to energize your business? Our NEW Contract Wind and Solar Energy Program provides Property, Liability, Crime and Inland Marine Coverage for specialized wind and solar energy contractors, and wind and solar energy generating facilities. Coverage is available for the following:

- **SOLAR ENERGY CONTRACTORS**—There are two basic types of solar power: Photovoltaic (PV) and solar thermal. Operations would include the installation or maintenance of solar apparatus (i.e. mount solar panels; install storage tanks, pumps, valves, pipes and ducts; connections to buildings and/or electrical grid).
- **WIND ENERGY CONTRACTORS**—Operations would include the installation or maintenance of “small” wind turbine/tower structures that produce less than 100 kW of power for residential or small commercial buildings (i.e. site preparation; build foundation; install tower, wind turbine, gear box, blades and etc; connect to buildings and/or electrical grid).
- **SOLAR ENERGY GENERATING FACILITIES**—Solar energy generating operations owned and operated by the insured for the purpose of energy generation for sale to power companies.
- **WIND ENERGY GENERATING FACILITIES**—wind turbine energy generating operations owned and operated by the insured for the purpose of energy generation for sale to power companies.
